Re: Connect America Fund, WC Docket No. 10-90

Dear Ms. Dortch:

Ellington Telephone Company, Study Area Code 421874, hereby notifies the Federal Communications Commission (FCC) and the Wireline Competition Bureau (WCB) of changes that the Company made to its previous four FCC Form 477 filings. On March 22, 2016, Ellington Telephone Company submitted revised Form 477 Fixed Broadband Deployment data for June 30, 2014, December 31, 2014, June 30, 2015, and December 31, 2015.

Broadband availability and advertised bandwidths had been incorrectly stated in numerous census blocks. Corrections were made to the census block data after a thorough review of approximately 900 census blocks.

Ellington Telephone Company respectfully requests that the FCC allow these revisions to be included in the A-CAM computations to accurately reflect broadband availability and advertised bandwidths within the Company's study area boundary. Without these corrections, the amount of A-CAM support may not be sufficient to advance broadband service in the Ellington area.

Very truly yours,

Dee M. McCormack
